# Gaby's #Letter

As women, by nature,  
we were created to conceive.  
To multiply.

That's why the greatest promise of God that  
will turn into blessings of many,  
to men and women,  
more often than enough,  
started first in woman's heart as a seed.

Seeds that were planted in women,  
in matters of months  
or sometimes years,  
they will give birth to big giant trees.  
Trees that produce fruits to feed many.
